BATTERY-OPERATED CABLE CUTTERS

This new line of gear-driven cable cutters feature replaceable insert cutting blades that can be easily replaced using two screws. Replaceable insert cutting blades provide an easy and economical solution for damaged cutting blades resulting in a savings of up to \$600 when compared to non-replaceable blade models.

COPPER 750, 1000

ALUMINUM 1500

ACSR 1590

EHS 1/2"

INCLUDES:
Tool, Batteries,
Charger and Bag

Replaceable
insert blades
