

48" Heavy Duty Magnetic Aluminum Level

Model #: 1234-4800
UPC: 049448125241

To make this level as easy to use as possible, the oversized 1/2" vials come equipped with Johnson's SurroundView® technology for maximum visibility along with a top read window allowing the user to stand over the work to view the vials. Not only are the vials themselves easy to read, but the level has more vials than competitive models in 48" and longer lengths, meaning the vials are always within eyeshot, even at awkward angles. Large comfortable rubberized hand grips provide a comfortable, sure grip every time. This level's strong magnetic edge provides hands-free use on ferrous metal surfaces.

APPLICATION

This I-beam level is a perfect fit for general contractors and drywallers, although its versatility makes it a must-have for homeowners as well. Its strong magnetic edge makes it the ideal choice when working with steel studs or doorframes. When working with wood studs or doorways, consider the non-magnetic model 1233 I-beam level.
