

## 6" Magnetic Billet Torpedo Level

**Model #:** 1411-0600  
**UPC:** #049448411061

With four vials, this 6" magnetic billet torpedo level accurately measures 0°, 30°, 45° and 90°. CNC machined from aluminum billet, this level has excellent durability and heat dissipation for welding, while its Powerful GripTight™ V-groove rare earth magnets hold to flat or round ferrous metal surfaces for convenient hands-free use. This level also includes a stainless steel thumb screw conduit lock for accurate conduit bend offsets.

### PRODUCT DETAILS

- Powerful GripTight® v-groove rare earth magnets hold to flat or round ferrous metal surfaces
- Conduit lock for accurate bend offsets
- Solid billet aluminum frame
- Machined vial opening to assure accuracy

### SPECIFICATIONS

Accuracy 1mm/m  
Warranty Lifetime Accuracy Warranty

### APPLICATION

Designed for plumbing and electrical contractors, the magnetic V-groove frame of this level fits perfectly on pipe and conduit. Due to its solid aluminum construction, this level is also well suited for welders.
