

## 10" Magnetic Welder's Torpedo Level

**Model #:** 1424-1000  
**UPC:** #49448142415

Johnson's magnetic welder's torpedo level makes it easy to measure plumb, level and 45° as you weld. Its solid aluminum frame dissipates heat quickly, and its acrylic block vials withstand abuse. And adding to the level's versatility, its SurroundView® vials reflect ambient light for easy viewing under your welding helmet, and the powerful GripTight™ V-groove rare earth magnets hold the level tightly to flat or curved ferrous surfaces.

### PRODUCT DETAILS

- Powerful GripTight™ v-groove rare earth magnets hold to flat or round ferrous
- Metal surfaces
- Solid cast aluminum frame
- SurroundView® vials reflect ambient light for easy-read
- V-groove frame fits on pipe and conduit
- Solid block acrylic vials won't fog, leak or break.

### SPECIFICATIONS

Accuracy 1mm/m  
Warranty Lifetime accuracy warranty

### APPLICATION

Designed to withstand the rigors of welding, this 10" torpedo level can also be used on any jobsite to find plumb, level or 45°. Its magnetic V-groove frame also attaches perfectly to pipe and conduit, making it ideal for welding and plumbing purposes.
