

## 48" Magnetic Aluminum Box Level

**Model #:** 1721-4800  
**UPC:** #049448174140

Jobsites are rough, and Johnson's levels are designed to be strong and durable enough to take on that jobsite abuse. This box level comes equipped with solid block acrylic vials that won't fog, leak or break, and the shock absorbing endcaps protect the level when dropped, ensuring it stays accurate for life. When working in poorly lit areas, the SurroundView® vials reflect ambient light to keep them easy to read. This box level features strong rare earth magnets that hold the level securely in place on flat or round ferrous surfaces.

### PRODUCT DETAILS

- SurroundView® vials reflect ambient light for easy-read
- Screwed on hand grips stay on tool
- Solid block acrylic vials won't fog, leak or break
- Protective end-caps

### SPECIFICATIONS

Warranty                      Lifetime Accuracy Warranty

### APPLICATION

Versatility is key with this level as it can be used in any number of jobsite applications such as framing, finish carpentry and concrete work. The strong magnets make it the preferred choice when your project involves ferrous metals, such as working with steel studs, steel reinforced concrete and more. When working with wood studs or doorways, consider the non-magnetic model 1741 box level.
