

72" Aluminum Box Level

Model #: 1741-7200
UPC: 049448174171

Jobsites are rough, and Johnson's levels are designed to be strong and durable enough to take on that jobsite abuse. This box level comes equipped with solid block acrylic vials that won't fog, leak or break, and the shock absorbing endcaps protect the level when dropped, ensuring it stays accurate for life. When working in poorly lit areas, the SurroundView® vials reflect ambient light to keep them easy to read.

Warranty Lifetime Accuracy Warranty

APPLICATION

Versatility is key with this level as it can be used in any number of jobsite applications such as framing, finish carpentry and concrete work. This non-magnetic box level is preferred when working with wood or concrete. For use on steel studs or doorframes, consider the magnetic model 1721 box level.
