

19" Digital Angle Locator and Ruler

Model #: 1888-1900
UPC: #049448819003

Check and transfer angle measurements and have a ready straight edge all in one tool. This stainless steel digital angle locator and ruler is Johnson's largest model at 19". The digital angle locator displays measurements digitally in degrees on an easy-to-read LCD display. It also features easy two-button operation, including a zero function that lets you set any angle as your zero point. The 19" ruler portion of this tool includes a scale in 1/32's of an inch and in millimeters. And the lock function allows you to easily lock the blades at any angle, which is useful when transferring angles.
