

Insta-Mark Mechanical Carpenter Pencil

Model #: 40-0665

UPC:

Johnson's mechanical carpenter pencil is always sharp and ready for use with refillable graphite lead eliminating the need for sharpening. Its durable high impact molded body can survive tough working conditions and is built to last. Provides a consistent sharp tip for making clear and visible marks on a variety of surfaces. Replacement leads are stored inside the chamber for quick and easy refill and are protected from breakage. Never lose in your tool bag by attaching onto your pocket or tool belt with the handy metal pocket clip.
