

# Self-Leveling Cross-Line Laser Kit

**Model #:** 40-0921  
**UPC:** #049448009213

Cross-line laser levels offer the highest value of any type of laser: they're extremely versatile, easy to use and inexpensive. Johnson's self-leveling cross-line laser projects two crisp, clean laser lines simultaneously - one vertical and one horizontal. Its 360° graduated base makes angle layout a snap, and its locking mechanism protects the inner pendulum during transportation. Thanks to the laser's visual out of level indicator, you'll never need to worry about accuracy - if the laser can't self-level, it will alert you by flashing the beam. This kit is all you'll need to get your laser leveling project started. The elevating tripod attaches quickly and easily to the laser for hands-free use, and the tinted laser glasses enhance beam visibility on the jobsite. And the hard-shell carrying case protects your equipment when not in use.

## PRODUCT DETAILS

40-0921 Kit Includes > Laser, tinted glasses, elevating tripod, and hard-shell carrying case

- Self-leveling
- Interior horizontal and vertical layout
- Locking mechanism protects inner pendulum during transportation
- 360 degrees graduated base allows angle layout
- Emits cross line lasers; Projects vertical and horizontal laser lines simultaneously
- Projects vertical and horizontal laser lines simultaneously
- Visual out of level indicator
- 5/8" - 11 thread

## SPECIFICATIONS

Accuracy	+/-1/4"/35' (+/-0.6mm/m)
Battery Life	Approximately 12 hours continuous use
Center Screw Thread	5/8"-11
Dimensions	5" x 4" x 3.5" (127x102x89mm)
Interior Range	Up to 100ft. (30m) depending upon light conditions
IP Protection Class	54
Laser Classification	Class IIIa
Laser Wavelength	635nm+/-10nm (Red)
Leveling Method	Self-leveling (Pendulum)
Maximum Power Output	Less than/Equal to 5mW
Power Supply	3 "AAA" alkaline batteries (included in 40-0912)
Self-Leveling Range	+/- 6 degrees
Warranty	3 Year Warranty
Weight	1.2lbs (0.54kg)
Working Temperature	14 degrees to 113 degrees (-10 degrees celsius to +45 degrees celsius)

## APPLICATION

Cross-line lasers are versatile tools that you'll find useful for any number of leveling project, such as hanging shelving and pictures, tiling walls, leveling cabinets, finish work and more. With the included laser enhancement glasses, tripod and carrying case, you'll have everything you need to get up and running!
