

Interior Laser Pole

Model #: 40-6300
UPC: 049448273010

One tool is all you need to adjust your laser height for interior projects from 2'4" to 11', and anywhere in between. This interior laser pole's standard 5/8" - 11 or 1/4" thread is compatible with most lasers while its quick release clamp makes it easy to position your level at the needed height. You won't need to worry about your laser shifting or moving out of alignment thanks to the pole's spring-loaded end that provides a tight compression fit on your ceiling, cross-beam or floor. And storing and transporting your laser pole is a snap with the included soft-sided carrying case, which keeps your tool clean and safe when not in use.

PRODUCT DETAILS

40-6300 Includes > Interior laser pole and soft-sided carrying case.

- Designed for interior use
- Adjustable elevating range: 2'4" to 11'
- Quick release/lock elevating clamp with 5/8" - 11 or 1/4"-20 thread fits most lasers
- Spring-loaded end provides tight compression fit from floor to ceiling
