

## Heavy Duty Aluminum Tripod

**Model #:** 40-6340  
**UPC:** 049448273034

Johnson's heavy duty aluminum tripod, with a quick connection for lasers with a 5/8" - 11 thread, attaches quickly and easily to a variety of laser levels, making your next outdoor or indoor leveling project quick and easy. It extends to a maximum height of 63", and its feet have sharp metal points for sturdy use on uneven outdoor terrain as well as removable rubber covers for use on indoor jobsites. And the quick clamp lock offers quick and secure adjustments while the safety chains prevent the legs from collapsing. The tripod also comes with a carrying strap for convenience.

### PRODUCT DETAILS

### APPLICATION

Tripods are essential tools for the construction and surveying industries - they provide a stable place to mount laser levels for better reading and guiding on the jobsite. This tripod was designed for outdoor uses such as surveying, grading and site excavation as well as indoor uses such as installing cabinets, drywalling and framing.
