

Self-Leveling Rotary Laser

Model #: 40-6515
UPC: #049448065158

A workhorse for small jobsites, this rotary self levels in the horizontal plane and manually levels in the vertical plane. The rotary also features an illuminated vertical vial and adjustable rotational speeds of 200, 400 or 600 RPM. Accuracy is never a problem thanks to the visual and audible alarms that alert you when the rotary is beyond its leveling range and the locking pendulum that protects the inner pendulum during transportation. For a complete leveling system, consider Johnson's 40-6516 rotary laser kit or 40-6517 rotary laser system.

PRODUCT DETAILS

40-6515 Includes > Laser, tinted glasses, 4 "AA" alkaline batteries, and soft-sided carrying case

- Self-leveling in horizontal plane
- Locking mechanism protects inner pendulum during transportation
- Manual-leveling in the vertical plane with 90 degrees split beam
- Visual and audible alarms when beyond leveling range
- Laser rotates at 200, 400, 600 RPM
- Illuminated vertical vial

SPECIFICATIONS

Accuracy	±1/8"/50 ft.
Battery Life	Approximately 20 hours continuous use
Center Screw Thread	5/8"-11
Dimensions	6.61" x 4.96" x 6.69"
Exterior Range	Up to 800 ft. diameter with detector (included in 40-6516 and 40-6517)
Interior Range	Up to 200 ft. diameter depending upon light conditions
IP Protection Class	54
Laser Classification	Class IIIa
Laser Wavelength	635nm±10nm (Red)
Leveling Method	Self-leveling (Pendulum)
Maximum Power Output	±5°
Power Supply	4 "AA" alkaline batteries (included)
Rotation Speeds	200, 400, 600 RPM
Self-Leveling Range	±3°
Warranty	3 Years
Weight	3.30 LBS
Working Temperature	14°F-113°F

APPLICATION

Johnson's 40-6515 rotary laser is the perfect tool for small jobsites. It can be used vertically or horizontally for excavations, landscaping, fence lines, wainscoting, drop ceilings and more!
