

Self-Leveling Cross-Line Laser with GreenBrite® Technology Kit

Model #: 40-6609
UPC: 40-6609

Cross-line laser levels offer the highest value of any type of laser: they're extremely versatile and easy to use. Johnson's self-leveling cross-line laser features GreenBrite® technology, making the beam 400% more visible than red beams for working in sunny or brightly lit conditions. It projects two crisp, clean laser lines simultaneously - one vertical and one horizontal. It also features a manual mode for use at any angle for working on stairs or other non-level projects. Thanks to the laser's visual out-of-level indicator, you'll never need to worry about accuracy - if the laser can't self-level, it will alert you by flashing the beam.

PRODUCT DETAILS

- GreenBrite® Technology - 400% more visible than red lasers
- Vertical and horizontal laser lines
- Manual mode for use at any angle
- Pendulum lock protects laser during transport
- Visual out-of-level indicator
- 1/4"-20 tripod thread for use with most common tripods
- Magnetic bracket for use on metallic surfaces

SPECIFICATIONS

Battery Life	9 hours
Interior Range	Up to 50'
IP Protection Class	IP50
Laser Accuracy	±3/16"/30'
Laser Classification	Class II
Laser Wavelength	530nm±10nm(Green)
Leveling Method	Self-Leveling (Pendulum)
Maximum Power Output	≤1mW
Self-Leveling Range	±4°
Tripod Thread	1/4" - 20
Warranty	2 Year Warranty
Working Temperature	32°F to 104°F

APPLICATION

Johnson's cross-line laser is a versatile tool that you'll find useful for any number of leveling projects, such as hanging shelving and pictures, tiling walls, leveling cabinets, finish work, flooring, drywall track/stud wall installation and more. The laser's GreenBrite® technology makes the beam 400% more visible than red beams for working in sunny or brightly lit conditions.
