

# Self-Leveling Cross and Line Laser with GreenBrite® Technology Kit

Model #: 40-6612  
UPC:

Johnson's self-leveling cross & line laser combines the features of a cross-line laser with an additional 90° plumb line, useful for checking square reference of beams, posts or any other object. It features GreenBrite® technology, making the beams 400% more visible than red beams for working in sunny or brightly lit conditions. Thanks to the laser's visual out-of-level indicator, you'll never need to worry about accuracy - if the laser can't self-level, it will alert you by flashing the beam. With the included magnetic target, magnetic bracket, and tinted glasses, you'll have everything you need to get your job up and running!

## PRODUCT DETAILS

- GreenBrite® Technology - 400% more visible than red lasers
- 1 horizontal and 2 vertical lines at 90°
- Pendulum lock protects laser during transport
- Visual out-of-level indicator
- Manual mode for use at any angle
- 1/4"-20 tripod thread for use with most common tripods
- Ideal for flooring and alignment
- Magnetic bracket for use on metallic surfaces

## SPECIFICATIONS

Accuracy	±5/32"/30'
Battery Life	5 hours
Interior Range	Up to 100'
Laser Classification	Class II
Laser Wavelength	520nm±10nm (Green)
Leveling Method	Self-Leveling (Pendulum)
Maximum Power Output	≤1mW
Self-Leveling Range	±5°
Warranty	2 Year Warranty
Working Temperature	32°F to 104°F

## **APPLICATION**

Johnson's cross & line laser is a must-have for flooring, cabinetry, drop ceiling installation, wainscoting, carpentry, tiling, electrical boxes and switches, drywall track/stud wall installation, and plumbing & squaring of posts.
