

Self-Leveling 3 Dot Laser Kit with GreenBrite® Technology

Model #: 40-6641
UPC:

Johnson's self-leveling 3-dot laser offers the accuracy and convenience your next project demands. It features GreenBrite® technology, making the beam 400% more visible than red beams for working in sunny or brightly lit conditions. The laser simultaneously projects 3 bright self-leveling beams (plumb up, plumb down and level) for enhanced visibility, making it a versatile tool for your jobsite. The design of the laser housing allows for fast and easy top and bottom track installation, and the locking mechanism protects the inner pendulum during transportation. With the included magnetic target, magnetic bracket, and tinted glasses, this laser comes equipped with everything you need to get your job up and running.

PRODUCT DETAILS

40-6641 Includes > Green laser, magnetic target, magnetic bracket, glasses, 2 "AA" alkaline batteries, hard-shell carrying case
