

Self-Leveling Cross and Line Laser Kit

Model #: 40-6649

UPC:

Johnson's 40-6649 self-leveling cross & line laser combines the features of a cross-line laser with an additional 90° plumb line, useful for checking square reference of beams, posts or any other object. Thanks to the laser's visual out-of-level indicator, you'll never need to worry about accuracy - if the laser can't self-level, it will alert you by flashing the beam. With the included magnetic target, magnetic bracket, and tinted glasses, you'll have everything you need to get your job up and running!

PRODUCT DETAILS

40-6649 Includes > Red laser, magnetic target, magnetic bracket, glasses, 2 "AA" alkaline batteries, hard-shell carrying case

- 1 Horizontal and 2 Vertical lines at 90°
- Pendulum lock protects laser during transport
- Visual out-of-level indicator
- Manual mode for use at any angle
- 1/4"-20 tripod thread for use with most common tripods
- Ideal for flooring and alignment

SPECIFICATIONS

Accuracy	±5/32"/30'
Battery Life	10 Hours continuous use
Dimensions	2.5" x 3.0" x 3.6"
IP Protection Class	IP 50
Laser Classification	Class II
Laser Wavelength	635nm±10nm (Red)
Leveling Method	Self-Leveling (Pendulum)
Maximum Power Output	≤1mW
Power Supply	2 "AA" alkaline batteries (included)
Self-Leveling Range	±4°
Warranty	2 Years
Weight	8.8 oz (without batteries)
Working Range	Up to 100'
Working Temperature	32°F to 104°F

APPLICATION

The Johnson Level 40-6649 is a must-have for flooring, cabinetry, drop ceiling installation, wainscoting, carpentry, tiling, electrical boxes and switches, drywall track/stud wall installation, and plumbing & squaring of posts. Its 1/4"-20 thread and manual mode also let you project orthogonal lines at any angle, for stairs and other non-level applications.
