

JLX® Self-Leveling 180° Cross-Line Laser with GreenBrite® Technology

Model #: 40-6681
UPC: 049448066810

Johnson crafted the JLX® series of products to meet the demands and exceed the expectations of professionals, and the 40-6681 is no exception. It features GreenBrite® technology, making the beam 400% more visible than red beams for working in sunny or brightly lit conditions. It projects a cross-line with 180° coverage on the horizontal beam. With the included magnetic base, magnetic target, Lithium Ion battery and charger, and alkaline battery compartment, this kit comes with everything you'll need to get your job up and running!

PRODUCT DETAILS

40-6681 Includes > Green laser with magnetic base, magnetic target, li-ion battery and charger, alkaline battery compartment (alkaline batteries not included), hard-shell carrying case

- GreenBrite® Technology - 400% more visible than red lasers
- Includes li-ion rechargeable battery pack
- Cross-line with 180° coverage on the horizontal beam
- Pulse mode for use with line detector (sold separately)
- Pendulum lock protects laser during transport
- IP54 dust and water resistant construction

SPECIFICATIONS

Accuracy	±1/8"/35'
Battery Life	6 Hours Li-ion
Interior Range	Up to 200 ft, (Detector range up to 75 ft. Exterior)
IP Protection Class	IP 54
Laser Classification	Class IIIa
Laser Wavelength	520nm±10nm (Green)
Leveling Method	Self-Leveling (Pendulum)
Maximum Power Output	≤5mW
Power Supply	4 "AA" alkaline batteries (not included); Li-ion rechargeable battery pack (included)
Self-Leveling Range	±3°
Tripod Thread	1/4"- 20
Warranty	3 Year Warranty
Working Temperature	14°F to 113°F

APPLICATION
