

26X Automatic Level

Model #: 40-6926
UPC: 049448069262

Make your next outdoor project run faster and more accurately with Johnson's automatic level featuring a 26x power lens for strong magnification. This easy-to-use level features a large, ergonomic focusing knob, prism for viewing the bubble and top-mounted quick-sight for easy viewing of your grade rod. Accuracy is never an issue with this automatic level - it's equipped with fine adjustment knobs, focusable cross-hairs, 360° horizontal sighting circle and 1:100 stadia for distance estimation, which means you can dial in your measurements exactly, every time. The automatic level is also water and dust resistant, making it safe to use on nearly any jobsite. This level also comes with a hard-shell carrying case to keep your tool clean and safe when not in use. If you're looking for a tripod and grade rod to accompany the level, consider Johnson's Model 40-6928 26x automatic level system.
