

# JLX® 8" Magnetic Billet Torpedo Level

**Model #:** 5700-0800

**UPC:**

With five vials, this robust 8" magnetic billet torpedo level accurately measures 0°, 30°, 45° and 90° while the Multi-Pitch® vial reads in 1/8" increments for measuring drainage slope. It also features a solid machined aluminum billet frame with protective anodized finish for durability. Powerful GripTight™ rare earth magnets hold to flat or round ferrous metal surfaces for convenient hands-free use. This level also includes machined vial openings and a CNC machined gauging edge for high accuracy, all backed by a lifetime guarantee.

## PRODUCT DETAILS

- Powerful GripTight™ rare earth magnets hold to flat or round ferrous metal surfaces
- V-groove edge fits on pipe and conduit
- CNC machined gauging edges assures accuracy
- Durable protective anodized finish
- Multi-Pitch® vial for drain slope reads in 1/8" increments
- Solid machined aluminum billet frame
- CNC machined vial openings to assure accuracy
- 5 vials read pitch, level, 30°, 45° and 90°
- Backed with a lifetime guarantee

## SPECIFICATIONS

Accuracy	1mm/m
Warranty	Lifetime Guarantee

## APPLICATION

Designed for plumbing and electrical contractors, the V-groove frame fits perfectly on pipe and conduit and the pitch vial is ideal for finding drainage slopes. The solid aluminum construction also makes this level well suited for welders.
