

CABLE TIES & MOUNTS

GUARANTEED RUGGED + POWERFUL®

Product Brochure

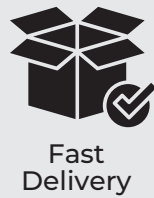

POWER **GRIP**®
CABLE TIES

Stock the Essentials

Trust **NSI** to be your **FIRST-CHOICE** partner for stock-n-flow electrical supplies that are reliable, ready-to-ship and delivered fast to keep your business running smoothly and profitably. With all the necessary supplies the electrical contractor carries in his truck every day, **NSI** is committed to providing the products and services that help your sales and profits.

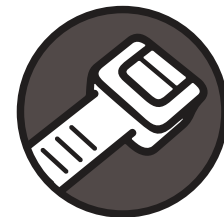

NSI: More than a vendor. Your partner for success.

Cable Management

GUARANTEED RUGGED + POWERFUL®

PowerGRP® offers a complete line of standard and special-use cable ties and mounts.

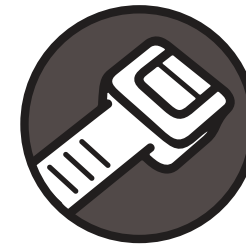

General Purpose

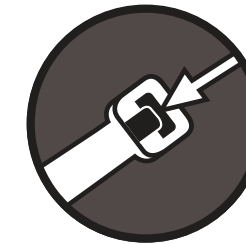

UV Stabilized	Impact Resistant	Screw Mount	Flag ID Marker	Hook & Loop	Steel Barb
Push Mount	Saddle Mount	4-Way Mount	Clip Mount	Masonry Push Mount	Cable Clamp

General Purpose Cable Ties

SELF-LOCKING HEAD
grips tight and secure

CURVED TIP
for faster threading

STRONG TEETH
lock in place

APPLICATION ENVIRONMENTS
Suitable for general purpose, light commercial, contractor and residential applications

MATERIALS
Nylon 6.6 suitable for plenum spaces
Natural color or UV weather resistant black suitable for outdoor use

OPERATING TEMPERATURE
- 40°C to 85°C
COMPLIANCE RATING
UL LISTED

UV Stabilized Cable Ties

Nylon 12 ties designed for outdoor use hold up under extreme heat conditions.

UV-Stabilized Cable Ties offer UV resistance for enhanced durability and longevity in outdoor and long-term applications involving exposure to sunlight and environmental elements.

- ▶ Withstands prolonged exposure to sunlight without becoming brittle
- ▶ Resistant to moisture, chemicals, and temperature fluctuations
- ▶ Maintains strength and performance over a longer service life
- ▶ Securely holds and organizes cables in outdoor settings

Steel Barb Cable Ties

Strong steel pawl locking mechanism with unlimited locking positions and a tight hold.

Steel Barb cable ties are a heavy-duty fastening solution for use in versatile applications across various industries, ensuring cables and bundles are well-organized, secure, and protected.

- ▶ Robust steel pawl locking mechanism for enhanced strength and security
- ▶ Unlimited locking positions for a precise and tight hold on any bundle size
- ▶ Excellent tensile strength ensures reliable fastening in heavy-duty applications

Impact Resistant Cable Ties

Cable ties with a specialized head design for vibration stability and impact resistance.

Impact Resistant Cable Ties with a specialized head design offer reliable cable security and a longer service life in industries where vibrations and impacts are prevalent.

- ▶ Specially designed to withstand vibrations and impacts
- ▶ Ribbed and reinforced for added strength and stability

Push Mount Cable Ties

Push Mount cable ties snap through holes to mount fast.

The hooked end of these push mount ties clips into place instantly, affixing a cable bundle to an appropriate surface in a snap.

- ▶ Installs fast and secure in any orientation

Screw Mount Cable Ties

Cable ties with screw holes for fast and easy mounting.

Screw Mount Cable Ties are quick and easy to install, offering a secure attachment point for improved cable management in many applications. They reduce strain on cables and are reusable.

- ▶ Screw holes for faster installation and easy re-use
- ▶ Sturdy attachment for secure and long-lasting fastening
- ▶ Versatile for use on various surfaces and materials
- ▶ Reduces strain and improves cable management

Flag ID Marker Cable Ties

Cable ties with space to write in names or other identifiers.

Flag Identification Ties (Flag ID) are ideal for network installations and large-scale projects. They offer a convenient solution to identify and organize cables, smoothing operations and maintenance.

- ▶ Efficient cable management with quick and easy cable identification
- ▶ Reduces errors and tracing during installations, repairs, or maintenance
- ▶ Enhance organization and cleaner appearance in large-scale projects

Hook & Loop Cable Ties

Adjustable ties allow for permanent or temporary bundling of cables.

Hook & Loop Cable Ties provide versatile cable management, reusability, damage prevention, easy installation or removal and an organized appearance.

- ▶ Design features tiny hooks on one side and soft loops on the other
- ▶ Adjustable and reusable for temporary or permanent bundling
- ▶ Hassle-free to install by hand and can be cut to any length
- ▶ Soft and flexible, preventing cable damage

4-Way Mounts Cable Tie Mounts

4-Way adhesive mounts can be affixed to any surface to attach cable ties and more.

Adhesive cable ties mounts made from nylon 6.6 polyamide are easy to install and simplify the process of mounting wires or cable ties in many applications.

- ▶ Available in three different sizes and black or natural nylon
- ▶ Resistant to moisture, chemicals, and temperature fluctuations
- ▶ Can be mounted with adhesive, screws or both
- ▶ Securely holds and organizes cables in outdoor settings

Saddle Mounts Cable Tie Mounts

Saddle mounts are an easy-to-install solution for mounting cable ties.

Affix cable ties directly to surfaces using these saddle mounts. Simply screw the mount into place then thread the cable tie through and form a bundle as normal.

- ▶ Available in two different sizes and black or natural nylon
- ▶ Resistant to moisture, chemicals, and temperature fluctuations
- ▶ Installs fast and secure in any orientation

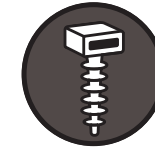

Clip Mounts Cable Tie Mounts

Clip mounts allow the installer to hammer an attachment point into place.

Available in single- and double-nail styles, these clip mounts are useful for strapping down cables or providing an anchor point for cable ties and bundles.

- ▶ Available in white or grey and with single or double nail holes
- ▶ Resistant to moisture, chemicals, and temperature fluctuations
- ▶ Installs fast and secure in any orientation

Masonry Push Mount Cable Tie Mounts

A push-in way to mount cable ties to wood, plasterboard, brick or stone.

These push-in mounts provide a secure way to mount cable ties to masonry that installs fast. Simply drill a hole, then push the mount into place.

- ▶ Faster installation than other styles of mount
- ▶ Resistant to moisture, chemicals, and temperature fluctuations
- ▶ Installs fast and secure in any orientation

Cable Clamps Cable Mounts

Cable clamps screw into place, creating a secure anchor point.

A familiar and reliable way to mount individual cables or a cable tie to be used for bundling, these clamps screw into place and hold tight.

- ▶ Available in black or natural nylon color in a range of sizes
- ▶ Resistant to moisture, chemicals, and temperature fluctuations
- ▶ Installs fast and secure in any orientation

EASY-STACK® CABLE STACKER

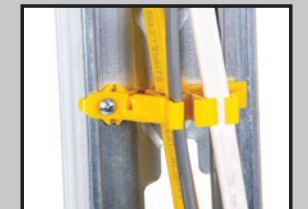

Additional Cable Management Product Available

INCREASE YOUR PRODUCTIVITY

Versatile and easy to use, Easy-Stack Cable Stacker is the perfect solution for a variety of applications. Install with a nail, staple or screw into wood or metal studs.

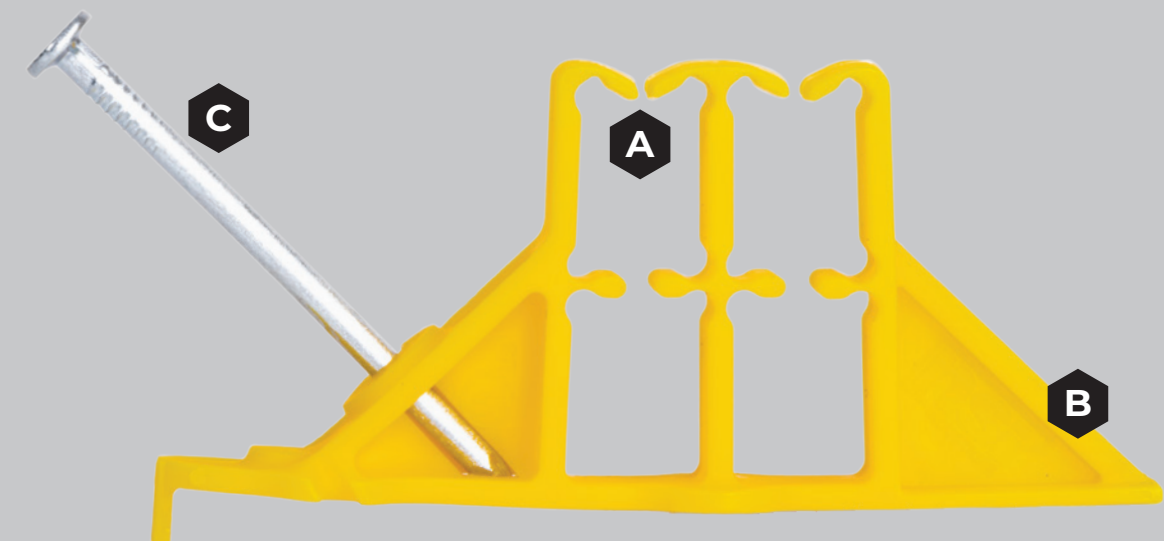

WOOD

METAL

- A** Cables are self-securing – no snap to close.
- B** Strong enough to be installed and re-installed as needed.
- C** Can be installed with a nail, staple or screw (included) for application into wood or metal studs.
