

DURO[®]
DYNE

DYNA-TITE[®]
SUSPENSION SYSTEM

PRODUCT BROCHURE

DYNA-TITE®

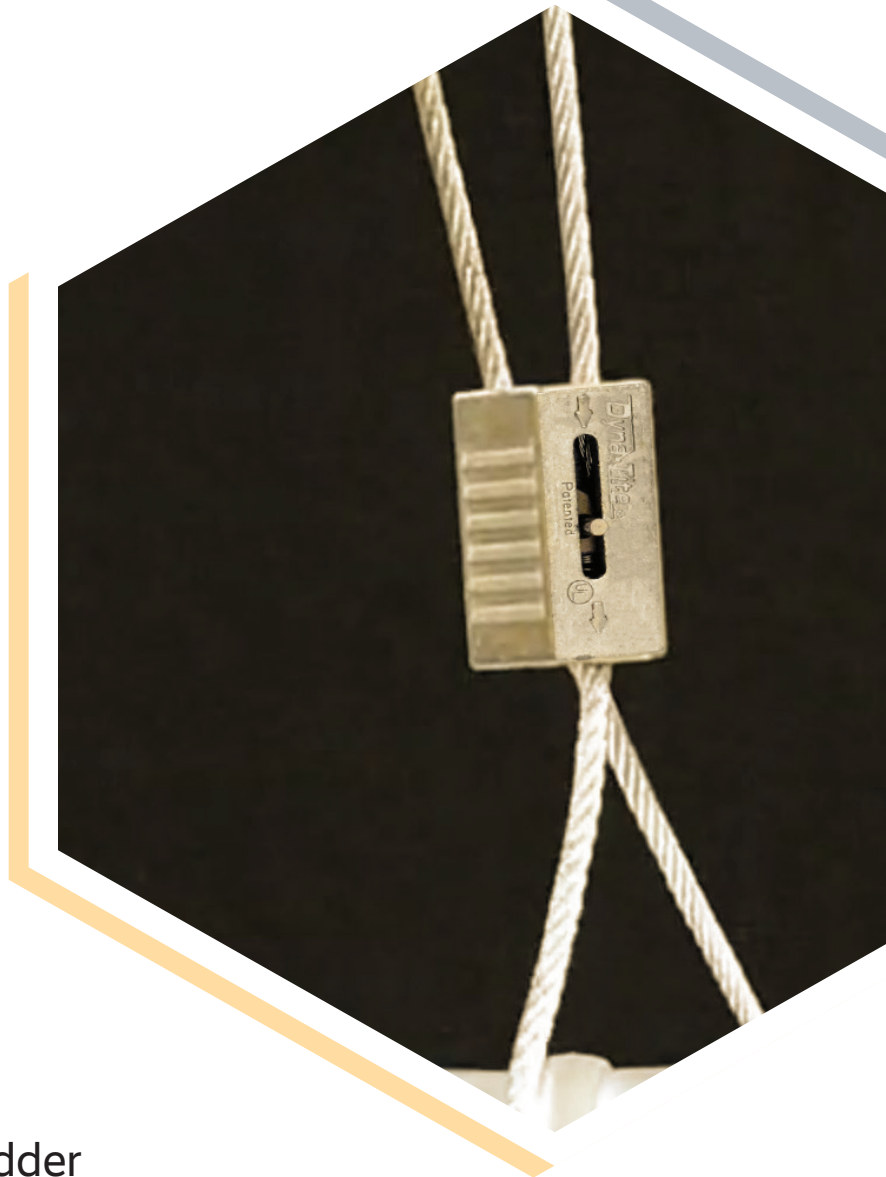

SAFE STRONG PROFESSIONAL STRENGTH

BENEFITS

- ▶ Saves installation time and requires no tools
- ▶ Easier to adjust than threaded rod and chain
- ▶ More accurate and lighter than jack chain
- ▶ Less expensive than other options
- ▶ Fully adjustable without tools or rework

APPLICATIONS

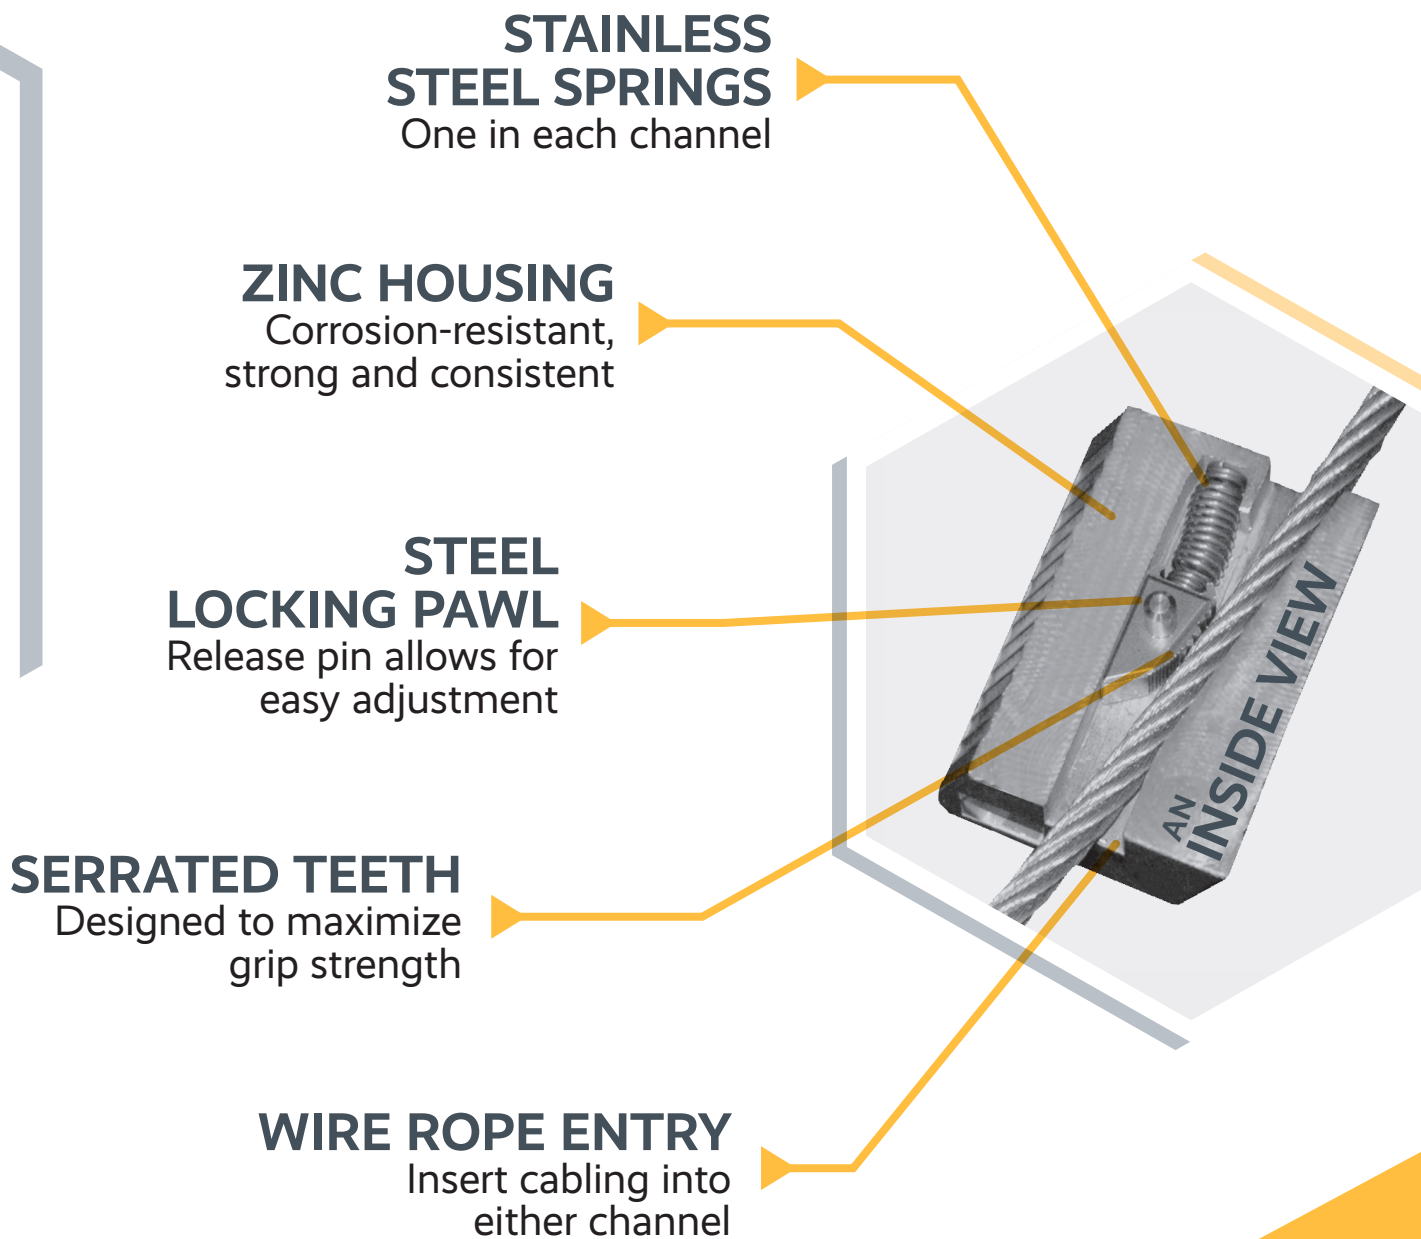

- ▶ Light fixtures
- ▶ Signage
- ▶ Cable basket
- ▶ Cable ladder
- ▶ Cable tray
- ▶ Conduit

To ensure system integrity, use only with Duro Dyne Dyna-Tite cables. All cable locks have been tested to five times their allowable working loads by independent laboratories.

CABLE LOCKS SUSPENSION SYSTEM

The fast, reliable way to suspend static loads including lighting, sound systems, cable trays, wire baskets, signage and more.

PRODUCT CATEGORIES

Cable Locks

- ▶ The quick and easy way to lock cables at any length
- ▶ Use for signs, lighting, gallery displays, speakers, cable trays
- ▶ Available in retail packs or bulk

INSTALLATION INSTRUCTIONS

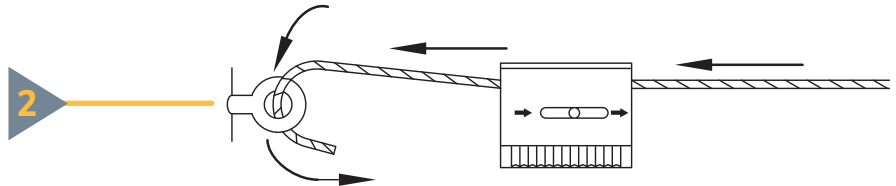

Failure to pull adjustment pins during installation or adjustment can damage the serrated teeth and reduce holding capacity.

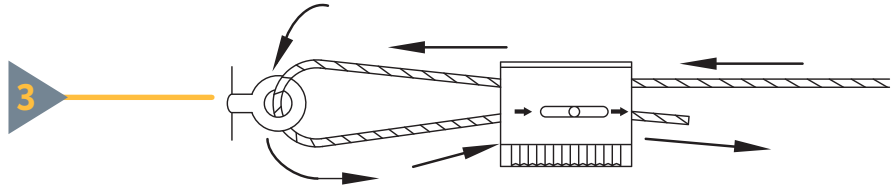

1 Pull back adjustment pin and pass cable through the Kwik-Loc

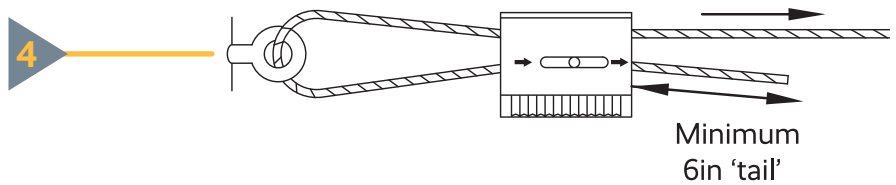

2 Loop wire over destination and back to anchor

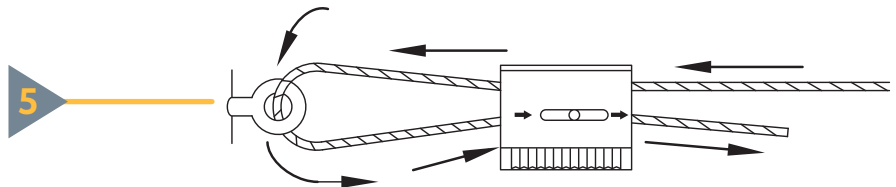

3 Pull back adjustment pin and pass at least 6" of wire through

4 Confirm engagement of locks by pushing pins in opposite direction of arrows

5 To adjust, remove load and pull tail slightly, then release adjustment pin

All Duro Dyne Dyna-Tite cable locks have been tested to FIVE times their allowable working load by independent testing laboratories

Always install Dyna-Tite cable hanging systems in strict accordance with the installation instructions. Full list of instructions and warnings can be found on nsindustries.com/dyna-tite
